

# Just a spoonful of SUGAR...

It is essential to have your glycaemia tested to highlight possible alterations in your blood SUGAR levels.

A high blood sugar level can lead to diabetes.

Hyperglycaemia (high blood sugar) often has no accompanying symptoms, which is why it is important to have regular check-ups.

## **CHECK YOUR BLOOD SUGAR WITH THE CHECK-UP PROPOSED BY C.D.C.**

- Glycaemia
- Glycosylated Haemoglobin
- ACR Albumin/Creatinine Ratio
- Complete Urine Test

PROMOTIONAL PRICE  
IN GLYCEMIA MONTH
