
Theme of the month: The Immune System

KNOW YOUR IMMUNE SYSTEM

The immune system is the silent shield that protects the body from threats (e.g.: bacteria, viruses and parasites) from the outside, and from the inside too (e.g.: cancer).

The immune system is made up of a combination of cells (white blood cells) and molecules which have the job of identifying and eliminating elements that are potentially dangerous to our health.

Being extremely complex, the immune system sometimes runs into difficulty but all it takes are a few simple blood tests to highlight any alterations.

Make sure your immune system is working with the CDC Check-up

From Monday to Saturday on an empty stomach. By appointment, with no letter from your doctor.

- Blood tests
- ESR
- PCR
- QPE
- Immunoglobulin IgA
- Immunoglobulin IgG
- Immunoglobulin IgM

PRICE FOR THE MONTH OF
JULY

€ 36

If the results are outside the acceptable range, contact your GP
