

# ALLERGIES

## Grasses and Trees

An **allergy** is an abnormal and exaggerated response of the immune system induced by contact, inhalation and/or exposure to normally harmless foreign substances called allergens.

The tissues involved in this reaction are mainly the nasal mucous membranes, the eyes, the bronchi and the skin.

Allergens can be inhaled when we breathe, as happens with **grass and tree pollen**, animal hair, moulds and dust mites.

### Test for allergies to grasses and trees with the CDC Allergy Tests

By appointment, with no letter from your doctor

#### Grasses

- Ambrosia
- Wormwood
- Meadowsweet
