

# Theme of the month: the Thyroid

## THE THYROID

The **thyroid** is a little butterfly-shaped gland located at the front of the neck which regulates important bodily functions.

Problems can be caused by an underactive thyroid (hypothyroidism) or an overactive thyroid (hyperthyroidism).

The most common symptoms of hypothyroidism are fatigue, dry skin, intolerance of cold and weight gain.

Symptoms of hyperthyroidism are fatigue, increased heart rate (tachycardia), intolerance of heat, sweating, weight loss with increased appetite and insomnia.

### Have the CDC Thyroid Check-up

By appointment, with no letter from your doctor.

- TSH
- FT3
- FT4

PRICE FOR  
THE MONTH OF JUNE

€ 24

*If the results are outside the acceptable range, contact your GP*
